PROFESSIONAL SUMMARY

IT professional with completed academic requirements for the Higher National Diploma in Information Technology (HNDIT) at the Sri Lanka Institute of Advanced Technological Education (SLIATE), currently awaiting official certification. Hands-on experience developing full-stack web applications and responsive user interfaces through academic and personal projects. Skilled in React.js, JavaScript, Node.js, Express.js, MongoDB, and Tailwind CSS, with additional experience in Java, Python. Experienced in MERN stack development, REST API integration, database connectivity, authentication, role-based access control, and AI-powered application development. Seeking an internship opportunity to apply technical skills, contribute to real-world software projects, and grow within a professional IT environment.

EDUCATION

Higher National Diploma in Information Technology (HNDIT)

Sri Lanka Institute of Advanced Technological Education (SLIATE)

2024 – 2027

Academic requirements completed; official certificate pending

G.C.E. Advanced Level – Mathematics Stream

2020

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript, React.js, TypeScript, Tailwind CSS, Material UI

Backend Development: Node.js, Express.js,

Programming Languages: Java, JavaScript, TypeScript, Python

Databases: MongoDB, MySQL, JDBC

Development Tools: Git, GitHub, VS Code, Figma

Other: REST APIs, Responsive Web Design, Object-Oriented Programming (OOP), Authentication, Role-Based Access Control

PROJECTS

AI-Powered Internship & Job Matching Platform

MERN Stack | Python | NLP | Machine Learning

- Developed a full-stack internship and job matching platform with separate Student, Recruiter, and Admin modules.
- Built responsive user interfaces using React.js and Tailwind CSS.
- Implemented authentication and role-based access control for different user types.
- Integrated AI-based resume analysis that generates ATS score and skill matching feedback.

Hospital Management System

MERN Stack | MongoDB | Material UI | Git/GitHub

- Collaborated in a team to develop a full-stack Hospital Management System using the MERN stack.
- Developed responsive dashboards for administrators, doctors, and patients.
- Implemented features including patient registration, appointment scheduling, and medical record management.
- Used Git and GitHub for version control and collaborative development.

Personal Portfolio

[My Portfolio](#)

Next.js | TypeScript | Tailwind CSS | Three.js | Vercel

- Designed and developed a responsive personal portfolio website to showcase technical skills, projects, education, and certifications.
- Built the application using Next.js, TypeScript, and Tailwind CSS.
- Integrated interactive visual elements using Three.js.
- Deployed the portfolio using Vercel.

EduPathwayHub – Education Platform

HTML | CSS | JavaScript | GitHub Pages

- Developed a responsive education platform designed to help Sri Lankan students discover higher education and learning opportunities.
- Created user-friendly interfaces for education resources and different learning pathways.
- Implemented interactive features to improve navigation and user engagement.
- Designed the platform for compatibility across mobile, tablet, and desktop devices.

OrbitEye – Satellite Pass Tracker

Java | Java Swing | OOP | API Integration | JDBC

- Developed a desktop-based satellite pass tracking application using Java Swing.
- Applied object-oriented programming concepts throughout the application.
- Integrated external API data and JDBC-based database connectivity.
- Implemented report generation functionality.

CERTIFICATIONS

Diploma in Computer Science

Nenasala - Kuliyaipitiya | 2023 – 2024 | A Pass
